Isuzu Launches New Premium Body Program with Aebi Schmidt called *Advantic*

Advantic-branded dry van bodies will be built in Landisville, PA and available for order Spring 2026.

ANAHEIM, CA – Isuzu Commercial Truck of America, Inc. today announced the launch of a new body program in collaboration with Aebi Schmidt. Isuzu dealers will be able to purchase completed trucks through Isuzu with the new *Advantic* body that is on display in the Isuzu booth (#1101) at this week's NTEA Work Truck Week in Indianapolis, IN. The program streamlines the upfit process, delivering Isuzu dealers a high-quality premium body on Isuzu N- and F-Series chassis that are ready to work.

The *Advantic* body features sleek, modern styling with a seamless exterior designed to enhance durability and leak resistance. Constructed with high-tensile glass fiber panels and a high-grade aluminum frame, the body delivers exceptional strength, dent resistance, and long-term performance. Engineered for durability, the body is designed to withstand years of demanding commercial use and can be transferred between chassis over its service life.

Advantic bodies will be assembled in Landisville, Pennsylvania to serve Isuzu's largest markets in the Northeast region. By integrating body and chassis into a single-source solution, the program simplifies ordering, offers "pre-engineered" body and chassis combinations, has a 4-week committed lead time, and ensures consistent build quality.

"The *Advantic* body program represents a major step forward in the ongoing collaboration between Aebi Schmidt and Isuzu. This turnkey premium solution meets the evolving needs of commercial customers," said Jacob Farmer, President of Commercial & Fleet at Aebi Schmidt Group. "By combining advanced materials, precision engineering, and domestic

manufacturing in Landisville, we are delivering a product built for long-term durability and performance.”

“Isuzu dealers are consistently asking for streamlined solutions that reduce complexity and speed up delivery to customers,” said Shaun Skinner, President of Isuzu Commercial Truck of America. “This new program gives dealers access to a unique premium body offering that their customers will appreciate and the best part is that it is a one-invoice solution that helps them stock work-ready trucks.”

For more information about the new premium body program, contact your local Isuzu dealer or visit ISUZUCV.COM
