NPR AND NPR-HD GAS POWERTRAIN

2018 Isuzu N-Series gas trucks are powered by a 6.0L V-8 Vortec engine coupled to a double overdrive 6-speed automatic transmission with a lockup torque converter, improving both vehicle performance and fuel economy.

With 297 hp and 372 ft.-lbs. of torque, the engine provides well-proven design features like a 100,000 mile maintenance-free ignition system, a long-life timing chain and cast stainless steel exhaust manifolds. Isuzu N-Series gas trucks are also available with an optional CNG/LPG capable engine.

NPR AND NPR-HD GAS LOW CAB FORWARD CHASSIS

Isuzu N-Series gas trucks are built with the same proven frame, axles and brakes found on Isuzu N-Series diesel trucks.
